PEARL CITY
MARINE PRODUCTS

Who we are

Pearl City Marine Products Pvt. Ltd

Was established in 2015 by a group of professionals who are stalwarts in the business of manufacturing of fishmeal and fish oil. We manufacture superior quality Fish Meal and Fish Oil in our modern and fully mechanised state-of-the-art Fish Meal and Fish Oil plant situated on the coast of Tuticorin, the heart of fisheries industry in South India.

We are serving best quality products over the years and have established ourselves as a popular brand in the international as well as national market.

Fulfilling our customer's requirements with complete satisfaction is of profound importance to us and makes us stand out from the rest. It has also been the essence of our success over the years.

PEARL CITY
MARINE PRODUCTS

Our Vision

What we strive to achieve

Our Vision is to be an International enterprise in marine products by maintaining our leading position in the regional market, relying on tradition and quality, and strengthening our brands with continuous investment in the development and growth of our organization. To grow continuously in a sustainable way even though we are recognized internationally as the leading providers of fish protein, fish oil and its derivative products.

To be seen as an organization that adheres as much to its environmental & social responsibility and local commitments even as it expands its global reach.

Our Mission

Fish Oil

The riches of the seas to your farms

Fish Oil is one of the most commonly used food supplements. Fish oil is also used for the production of feed for farmed fish and in the production of refined fish oil for human consumption. Rich in Omega 3 fatty acids – EPA and DHA and Vitamins A and D, fish oil brings these nutrients from the short lived oily fish in to the human food chain via fish oil supplements as well as farmed fish and livestock. It is also used in drying oils, varnishes, greases and water proofing agents.

Characteristics

Raw materials and ingredients used

Sea caught fish (iced) obtained from Sea area of East & West Coast of India. 1. Oil Sardine / Sardinellalongiceps, 2. Mackerel/ Rastrelligerkanagurta, 3. Lesser sardine/ Sardinellagibbosa
